Texan Moves That Senate Recede From All Amendments But Admission of Oklahoma and Indian Territory as State.

Wyatt Building, 14 a and F Streets. Washington, March 1.-The conference committee of both houses on the statehood bill reached an agreement to-day as to the prohibition clause of the measure It is allowed to stand as originally recommended by the Senate Committee on Territories, and provides for prohibition in the Indian Territory for ten years from the date of admission. As passed by the Senate the amendment would have affected both Oklahoma and Indian Territory. and have endured for twenty-one years. The conference reached no agreement on the main point of contention-that is, with reference to Arizona and New Mexico. **AUTO LAW INVALID** After another three hours of discussion the committee adjourned to meet at 1

o'clock to-morrow. Senator Joseph W. Balley of Texas has Judge McElhinney of Clayton changed his plan to force another vote in the Senate on the statehood question. He made a motion to-day to discharge the conference committee, and that the Senate recede from all its amendments to the bill except the provision which would grant joint statehood to Okiahoma and Indian Territory. The motion was not voted on, as, under the rules, it lies over for one day.

for one day.

"My purpose," sabi Senator Bailey, "is to obtain some expression by a vote in the Senate on the admission of these two prosperous Territories to statehood. If by to-morrow the Conference Committee shall not have reported, only two legislative days remain of the session, and it will then be time to take the matter out of the hands of the committee."

Senator Bailey did not insist upon his statchood amendment to the Indian bill for fear that it would reconfide this mo-

statehood amendment to the Indian bill for fear that it would prejudice this motion. Perhaps a more potent reason was the fact that to hold up the Indian bill would have also headed off the rivers and harbors bill, in which is appropriated several million dollars for Texas. It is believed to night that a majority of the Senate can be mustered in favor of the Bailey motion, should no agreement be reached in conference.

#### RAILROADS

**WESTERN UNION MAY MOVE** TO COMMERCIAL BUILDING.

Negotiations Said to Be On to Secure Old Frisco Offices and Ground Floor Space.

Negotiations are understood to be pending between the managers of the Commercial building, southeast corner of Sixth and Office streets, and the Western Union Telegraph Company for occupancy of a part of the building by the Western Union

offices

The term's of the lease, it is said, have been partially agreed upon, and is expected that the deal will be closed in a few days. The lease, it is said, embraces portions of the fifth, sixth and seventh floors, which were formerly used as offices by the Prisco Railroad; also space on the ground floor.

The Western Union Company has, for several years been seeking a central location for its offices, and propositions have been offered from time to time to erect a building for the corporation in the downtown district. The lease held by the telegraph company on its present quarters on Pine street, between Broadph company on its present Pine street, between Broadquarters on Pine street, between Broad-way and Fourth street, will expire short-ly, and the officials of the company de-sire to be ready to make a change.

DISREGARD COMMISSION'S ORDER. Railroad Will Not Change Rate on Livestock and Livestock Products.

Chicago, March 1.-Executive officials of the Western railroads have decided to ignore the order of the Interstate Commerce Commission requiring them to charge no higher rate for live stock than is charged higher rate for live stock than is charged for the transportation of live-stock products. By the advice of the attorneys of the different roads the matter will be tested in the courts, as the railreads are agreed that it will be impossible either to lower the live-stock rates or to increase the tates on live-stock products.

A reduction on the live-stock rates in compliance with the decision of the concompliance with the decision of the commission would mean a minimum reduction of  $\mathcal{B}_2$  cents and a maximum of about 8 cents per 160 pounds, and would affect fully 40 per cent of all the live-stock traffic west of Chicago. The railroads estimate that compliance with the order of the commission would mean an aggregate loss to the ratirouds of about \$2,000,000.

DATES FOR RATE HEARINGS.

Change in Maximum Tariff Much Opposed by Traffe Officials. In the matter of the proposed freightrate reduction, the Missouri Railroad Commission has ordered that further hearings shall be held at Kansas City, to-day; St. Joseph, to-morrow; Jefferson City, Monday: Springfield, Tuesday: St. Louis, Wednesday, and Jefferson City, March 14. Considerable opposition has been shown to the proposition to reduce the maximum freight rate in Missouri from \$9\$ to 50 cents. It is claimed by traffic officials that if this is done it will necessitate a reorganization of rates throughout a large portion of the West and Southwest, and in several instances will work injury to St. Louis shippers.

WILL HAVE OFFICE IN CHICAGO. 1. 5. Dodge to Keep in Touch With Traffic Managers.

In order that he may be in touch with the traffic managers, A. S. Dodge, vice president of the Frisco, in charge of traffic, will have an office in Chicago as well as St. Louis. It is expected that Mr. Dodge will spend considerable of his time in Chicago. Mr. Dodge injured his knee several weeks ago while in Chicago, and yesterday for the first time since the accident, was able to go to his office.
